

Welcome

Googie ('gu:gi/Goo-gee) Ever hear of it? Know what it is? I bet you do but you just don't know the name. Googie is a modern architectural style that helps us

theaters of that era all consisted of Googie. Other examples of this type of architecture include the Space Needle in Seattle and Disneylands' Tomorrowland.

We are committed to providing quality craftsmanship with our products and superior customer service at the most competitive prices. We find it significant to build and maintain relationships with companies that share our philosophies and objectives to ensure a successful outcome.

understand post-WWII American futurism. It is a style built on exaggeration; on dramatic angles and on plastic, steel and neon.¹ Googie had some distinct characteristics; starbursts, flashing lights, atom motifs and flying saucer shapes. It draws inspiration from the Space Age, according to the 1949 version of what the space age was! The origination of the name Googie dates back to 1949, when Architect John Lautner designed a west Hollywood coffee shop, named Googies, which had a distinct architectural style.² The "Welcome to Las Vegas" sign, the "Jetsons" cartoons, the drive-in movie

This modern consumer architecture was based on communications. What a way to let people driving in their cars know what was coming up; the motel, drive-in or diner. Architecture has really evolved, but it is great fun looking back on where we came from. ¹.Smithsonian.com. ².Wikipedia.com

Did you know?

We at AGS, Inc. were so moved by the total destruction of Houston, that we all wanted to help. Everyone in our company donated and it went to buy a truckload of bottled drinking water that was shipped to Houston! There are a few people we would like to personally thank for the help. Our owner, John, who matched the employee donations and more to get to half of the total order. Pittco Architectural Metals, specifically Matt Shapiro, who was ready and willing to donate half of the money. And we cannot forget to thank John Andreotti and Taylor Gustafson at Trek Freight for the donation of the cost of the truck and freight charges, as well as getting everything set up. And a shout out to Meijer for their great discount! This was a group effort! Thank you all.

That is a lot of water!

Completed Projects:

Clarksburg Premium Outlets, Clarksburg, MD:

Chamberlain Group Headquarters, Oak Brook, IL:

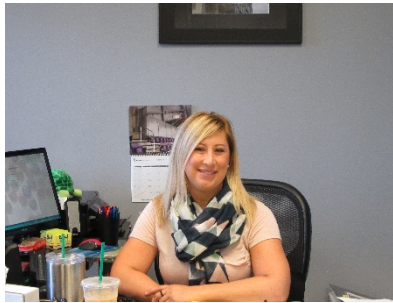

Recently Awarded:

Texas A&M University Nursing & Health Sciences Bldg., College Station, TX

Mission Hospital for Advanced Medicine, Asheville, NC

Meet our Spotlight Employee:

Kelly Meister,
Receptionist/Executive Assistant

Kelly began her career with a Business Degree with a minor in Healthcare. She worked at Robert Morris University for 4 years as a Presentations Coordinator. She then decided to take some time off to start her family. She has 3 children; Rachel, 15, Jason, 13 and Olivia, 10. She has been married to her high school sweetheart Jason for 17 years. When she decided to go back to work, she chose AGS, Inc., where she assists with the daily operations of the office. When Kelly is not at work, she enjoys watching her oldest daughter play soccer, her son play travel baseball and her youngest daughter competitively dance. She also loves hanging out with friends, traveling with her husband and taking her dog Brooke on long walks.
