

High performance for a building
that knows the subject well.

Custom grilles and sunshades for any concept.

The Research Support Facility at the National Renewable Energy Laboratory integrates striking aesthetics and high energy performance. Designed to meet LEED Platinum requirements, it is also the first Zero Energy Building (ZEB) of its kind. AGS produced these dramatic sunshades that reinforce the design concept and are a visible reminder of the Laboratory's commitment to renewable and energy efficient technologies.

Let us help bring design and performance to your next project with our unique sunshade solutions. Call **708/479.9458** or visit agsshade.com
